AAU concludes the First International Conference on Pharmacy and Biomedical Sciences

Al Ain University concluded the First International Conference of Pharmacy and Biomedical Sciences, which lasted for two days, from 18 to 19th of January 2023, at Abu Dhabi campus. More than 170 researchers and participants attended the conference, and more than 100 research papers from 40 academic and non-academic institutions were reviewed from 20 different countries.

The conference discussed research related to various fields of health and medical sciences and addressed proposals and innovative solutions to serve the community and meet its needs through scientific research and workshops presented by a group of speakers, researchers, specialists,

professors, pharmacists, nutrition experts, trainees and students. The conference addressed several domains, most notably: Clinical Pharmacology, and Pharmacy Practice, Pharmacology and Molecular Therapeutics, Drug Design and Discovery, Biomedical Sciences, Pharmaceutical Technology and Nutrition and Food Science. The conference included keynote addresses made by: Prof. Marc von Etzstein - Professor of Chemical Biology and Medicinal Chemistry, Executive Director of the Glycomics Institute, University of Griffiths, Queensland, Australia, and Professor Jonathan Laing - Professor of Public Health, University of Sunderland, UK.

Traffic Awareness Workshop in cooperation with Abu Dhabi Police

In cooperation with Abu Dhabi Police (Traffic and Patrols Department), the Deanship of Student Affairs at Al Ain University (Abu Dhabi Campus) organized a traffic awareness workshop presented by Major Ahmed Abdullah Al Muhairi.

The lecture included a detailed explanation of digital traffic awareness, mobile phone hazards, safety procedures in case of weather fluctuations, vehicle breakdown procedures, the Darb Al Salama

campaign, speeding, and seat belts, in addition to the most important laws to be followed while driving.

The workshop aimed to raise traffic safety awareness among the students. In line with this aim, the Deanship of Student Affairs at Al Ain University launched the Traffic Safety Committee which will embark in voluntary and advisory work to promote traffic awareness and public safety amongst university students and the local community.

A field trip to World Future Energy Summit 2023

The College of Engineering at Al Ain University (Abu Dhabi Campus) organized a field trip to World Future Energy Summit (WFES) 2023, under the supervision of Eng. Lama Mahmoud.

WFES 2023 is an annual leading international event accelerating sustainability and the Global transition to clean energy. The event was supported by the UAE Ministry of Energy and Infrastructure, hosted by Masdar, and in partnership with Tadweer. World Future Energy Summit

2023 has six different forums, as follows: Solar and Clean Energy, Eco Waste, Water, Smart Cities, Climate Change, and Industrial forum.

The trip aims to give the students a chance to discover the latest developments affecting clean energy, solar, water, waste, smart cities, climate, and the environment sectors. These forums provide an essential platform to keep up-to-date with best practices, and current regulatory and market developments.
