## **AAU receives new students with new programs**

Starting with the second semester of the academic year 2018-2019, Al Ain University of Science and Technology received its new students with a variety of new academic programs that meet the needs of the local and international labor market and the student's aspirations, improve the quality of education, and keep up with the progress of the sciences at the local and international levels. Namely: Bachelor of Science in Civil Engineering, Master of Education in Arabic Language Curricula and Instruction, Master of Education in Islamic Education Curricula and Instruction. In addition to new MBA tracks in the Project Management and in the Healthcare Management.

Prof. Ghaleb El Refae, AAU President said that, the idea of offering these academic programs is to provide high quality of education for students to improve their educational level.

Students can join one of these programs by applying through the University's website or by visiting the Admissions and Registration Unit, submitting the required papers.

On the other hand, the Al Ain University provides the new students with different publications and regulations that contains the necessary information and details related to the university and its colleges.

AAU has completed all the necessary preparations to create an appropriate educational environment for students through the modernization of service facilities, scientific laboratories and classrooms, and the development of electronic systems, as well as, the provision of recreational facilities such as gyms, health club and restrooms.

It is worth to mention that, Al Ain University of Science and Technology has 6 colleges; College of Engineering, College of Pharmacy, College of Law, College of Education, Humanities and Social Sciences, College of Business and the College of Communication and Media. It also offers 15 Bachelor programs, 7 Master programs and a Professional Diploma in Teaching.
